

ZAMIN ABBAS

BS Artificial Intelligence Student — 4th Semester

0304-4277292 | zaminafzal8@gmail.com | github.com/zaminaliafzal-oss | linkedin.com/in/zamin-ali-afzal
Portfolio: autonexa-ai.vercel.app

PROFESSIONAL SUMMARY

BS Artificial Intelligence student (4th Semester) at Superior University, Lahore, with hands-on experience in AI automation, Python, SQL, and web development. Builds practical AI solutions, including lead-support automations and AI chatbots in Make.com, and a full-stack Flask-based Online Doctor Appointment System. Currently studying Machine Learning, Data Structures & Algorithms, Linear Algebra, and AI Programming. Seeking an internship or junior AI / automation / developer role to apply these skills in a professional environment.

EDUCATION

BS Artificial Intelligence — Superior University, Lahore

2024 – Present

- Currently in 4th Semester (3 semesters completed)
- Current coursework:** Machine Learning & ML Lab, AI Programming, Data Structures & Algorithms, Database Systems (SQL), Linear Algebra
- Completed coursework:** Object-Oriented Programming, AI Fundamentals, Data Structures, Python Programming

ICS (Physics) — Superior College, Lahore

2022 – 2023

TECHNICAL SKILLS

Languages: Python, SQL, HTML, C, C++ (basic)

AI Automation: Make.com workflows, AI chatbots, lead support automation, business process automation

AI / Machine Learning: Machine Learning (coursework & lab), AI Programming, Data Analysis with Python

Mathematics: Linear Algebra (vectors, matrices, transformations)

Databases: SQL queries, relational database design, JSON data handling

Frameworks: Flask, REST

Concepts: OOP, Data Structures & Algorithms, Algorithm Design, File Handling

Tools: Make.com, Git, GitHub, VS Code, Vercel

PROJECTS

AUTONEXA AI — AI Automation Projects & Website

Make.com · AI Chatbots · Vercel 2026

- Built AI automation workflows in Make.com, including lead-support automations that capture, organize, and follow up on customer inquiries
- Created AI chatbots that respond to customer questions and support lead generation for business use cases
- Designed and deployed the AUTONEXA AI website (autonexa-ai.vercel.app) showcasing services: AI chatbots, lead automation, appointment systems, AI agents, and CRM workflows

Online Doctor Appointment System (ODAS)

Flask · Python · JSON 2024 – 2025

- Built a full-stack web app with patient registration, login, and appointment booking
- Implemented a doctor panel for confirming/cancelling appointments and managing time slots
- Designed an admin dashboard with real-time stats, filtering, and patient overview
- Applied SHA-256 password hashing and session-based authentication for security

Resume Analyzer

Python 2025

- Built a tool to parse and analyze resumes, extracting key details such as skills and experience
- Implemented logic to match resume content against job requirements and generate feedback
- Designed for easy input handling and clear, structured output

AI Impact on Jobs (2010–2025)

Python · HTML 2025

- Analyzed employment data trends to study the impact of AI on jobs from 2010 to 2025
- Processed and structured data using Python for accurate insights and comparisons
- Built an HTML-based report/visualization to present findings clearly

CERTIFICATIONS

Data Science Essentials with Python — Cisco Networking Academy

Issued May 2026

Credential ID: f593381b-9baf-4b9e-8733-b9186bea97e6

Introduction to Modern AI — Cisco Networking Academy

Issued May 2026

Credential ID: 776d7071-be6d-4e70-9fab-d5ebec37ad74

LANGUAGES & SOFT SKILLS

Languages: Urdu (Native), English (Intermediate)

Soft Skills: Problem Solving, Team Collaboration, Fast Learner, Time Management
